## for Children with Disabilities

## Introduction

### A Word from RIV's Acting Directors

The Summer Services Booklet for Children and Youth with Disabilities, also known as the Yellow Booklet, has been produced by RIV for 24 years to help families begin planning for their child's summer. We are saddened to announce this will be the last edition of the booklet produced by RIV, but are thrilled to announce that Community Living Victoria will be taking over the production of this beloved booklet next year.

We hope that this booklet will assist you and your children with disabilities in planning for your summer. We would like to thank all of the organizations listed for their collaboration. RIV's Yellow Booklet has become a valued tool of parents planning their child or youth's summer. In 1996, RIV saw that there was a great disparity in the number of weeks of summer service a child or youth with disabilities received, based on their parent or caregiver's knowledge of the available summer options. The Yellow Booklet was developed to ensure all parents had equal access to program information in order for them to make informed choices. Over the years, the booklet has grown to include listings from an increasing number of agencies, as well as summer residential camps. I hope you find our 24th, and RIV's final edition, meets your planning needs and your child or youth has a wonderful summer experience!

-

Amie Renaud and Kirsty Jack, Acting Directors

\*Please note that the information listed in the booklet may not be entirely accurate as the COVID-19 Pandemic situation continues to evolve. We suggest reaching out to specific programs to enquire about the current state of their summer programming.

## Potential Funding Opportunity

### Camperships

#### Community Living Victoria (CLV) Camperships

Sometimes a youth may need someone with whom they are familiar, confident and comfortable with to attend camp with them to provide support. An honorarium may be available to provide this support.

The funding is made available through the generous support of the McAdams Foundation. Camperships are limited and available only when funding is obtained from our donors.

### Section 3: Summer Residential Camps

We believe that all children should have the opportunity to go to summer residential camps if they choose. We have listed some of the summer residential camps close to Victoria. These are all generic camps that support the concept of inclusion of a child with a disability. Parents of children with disabilities who are considering sending their child to a residential camp should read about **Lifetime Networks' Summer Residential Camp Assistance Service (previously run by Recreation Integration Victoria)** described in the CYSN sponsored program section of this booklet.

Parents are advised to contact the camp of their choice well in advance to discuss the suitability of the camp for their child and registration.

Please note that there may be other summer camp options not listed in this booklet, as this is not inclusive of every summer camp or service on the lower Vancouver Island. We hope that the listings provide you with references to many such camps but we encourage you to explore.
